Zika Alert

CDC has issued a travel alert regarding Zika virus transmission for people traveling throughout the Caribbean. Zika virus is spread primarily through the bite of an infected mosquito, which bites in the day and night, and lives both indoors and outdoors. Other modes of spread, including sexual transmission, have been reported. Only 20% of people infected with Zika virus show symptoms which most commonly include fever, headache, skin rash, joint pain and conjunctivitis (red eyes). The illness is usually mild with symptoms lasting from 2-7 days. Although serious complications and deaths are uncommon, recent increases in birth defects and neurological syndromes are being reported. The CDC travel health advisory particularly impacts women who are pregnant (in any trimester) and women who are trying to become pregnant. There is no vaccine to prevent or medicine to treat Zika. Mosquito repellent is available in the ship's gift shop or medical facility.

SAIL AWAY PARTY! Join us at 4:00 pm in the Centrum to say "Bon Voyage" to Baltimore at our fun filled Sail Away Party. There will be music, dancing and unforgettable views of the disappearing Baltimore coastline.
